

INSTRUCTIONS TO AUTHORS

Journal of Environmental Entomology(CN44-1640/Q), formally known as Natural Enemy of Insects from 1979 to 2008, is a bimonthly authorized by the Press and Publication Administration of the People's Republic of China (Document No. 390, New Periodicals and Newspapers [2007]).

1 Journal Coverage

The Journal publishes academic research papers on the basic theories and applied research results of entomology and its sub-disciplines, and outstanding reviews reflecting developing trends of modern entomology. The Journal gives priority to ingenious and pioneering research findings concerning agriculture, forestry, medical insects. Each issue consists of research reports (on Environment and Insects, Physiology and Biochemistry, Pest Management and Resource Insects), Review Articles and Short Communications.

2 Criteria for Publication

Submissions should convey a complete topic in a concise and clear manner, with the support of strong arguments and valid statistics, and the responsibility for ideas mentioned in the article and the accuracy of bibliographic citations lies completely with authors.

Title of the article should be precise and concise, while title of article on systematics is required to list the class, order and family name of the taxon. Abstract should cover purpose of research, research methods, principle results and conclusions, and etc. Key words, instead of phrases, should be able to reflect the article category and can be drawn from "Abstracts of Entomology" to facilitate computer retrieval. The storage place of observed specimen should be located. Nucleic acid sequence mentioned should be from those registered in International Nucleic Acid Data Bank.

3 Format of Articles

3.1 Titles and Body

The manuscript should adopt 10.5 point times new roman font. The following information should be placed before the body in both English and Chinese: title, author/list of authors, affiliation, current city and postcode, abstract, and 5-8 keywords. Research fund and grand number, as well as the resume of the first author (name, gender, year and place of birth, academic degree, professional title, main research area of the author, E-mail, and address) should be given in the footnote of the first page.

Please comply to the international system of unites(SI). The full spelling of an abbreviation should be given the first time it is used, and please note that abbreviations are not allowed in titles and are not recommended in abstracts either. Upper-/lower-case and italic should be employed properly when it comes to foreign letters and symbol. There should be a distinguishing difference for superscript and subscript letters, numbers, or symbols. Please use Pinyin when translating Chinese names of people and places. Latin scientific name of a family or classification below a family is required for the first time.

3.2 References

Bibliographic citations should submit to national and international copyright regulations. The last name of the author/authors (list both the authors if there are two and connect them with an "and"; list the first author when there are more than two of them, and end with *et al.*) and year of publication in round brackets. The references should be listed alphabetically in accordance with "author name -publication year" system, in which the first three authors are listed. The list of references should include works that are cited in the manuscript and that have been published, unpublished works should not be put in the list. A Chinese citation (in square brackets) should be

supplemented with corresponding English version putting ahead of it. The full name of Chinese journals should be given and *Entomology Abstracts* should be consulted for the abbreviations of English journals.

4 Submission

Submission of an article implies that it shall not published elsewhere. Submission to the journal is processed online at <http://hjkcxh.alljournals.net/ch/index.aspx> by the editors. Please attach a recommendation letter from the institute that the first author is affiliated to, with a statement that “the article is not submitted elsewhere nor breaches confidence”, otherwise the submission shall be denied. The signature of the corresponding author, when there is one, is required as a demonstration of his/her approval. Please provide full postal address, phone number and e-mail of the first author and the corresponding author.

According to the *Copyright Law of the People's Republic of China*, authors are asked to provide a copyright transfer letter, declaring whether or not they agree to transfer the copyright of all media to the Editorial Office of the Journal of Environmental Entomology. The editors shall make a decision on the papers within 3 months of submission date. The Editorial Office is not responsible for returning the manuscript, so authors should reserve a copy.

The Editorial Office reserve the right to delete information in the papers, and a declaration should be sent together with the manuscript if the author does not agree.

The Journal is indexed by China Journal Net(CJN), Chinese National Knowledge Infrastructure(CNKI), and other databases, so once accepted by the Journal, the paper will be accessible via these databases. As the remuneration covers the royalty for CD and journal net usage, please state in a letter when submitting if the author dose not agree to be indexed. Copyright (including versions on CD, internet and other media) of the papers published in the Journal belongs to the Editorial Office. Papers shall be published chronologically according to the submission date, however, a major breakthrough or outstanding works will be given priority. Each paper accepted is charged with publication fee, which the author should pay upon acceptance notification; the author will be provided with remuneration and two current periodicals.
